# **HKAPA WI-FI CONNECTION**

EDult

# USER GUIDE

- To guide on how to connect to the Wi-Fi System with wireless devices.
- Coverage included Platforms:
  - Windows
  - MacOS:
  - iOS
  - Android

## WINDOWS PLATFORM

• Switch on your device's Wi-Fi Functionality

Settings	
û Home	Wi-Fi
Find a setting $\rho$	Wi-Fi
Network & Internet	Con Show available networks
Status	Hardware properties
///wi-Fi	Manage known networks
문 Ethernet	Random hardware addresses
ଳ Dial-up	Use random hardware addresses to make it harder for people to track your location when you connect to different Wi-Fi networks. This setting
∞ VPN	applies to new connections.
$r_{D}^{N}$ Airplane mode	Use random hardware addresses Off
(۱۶) Mobile hotspot	

## WINDOWS PLATFORM

• In the list of wireless networks, click "HKAPA".

#### Click connect

• Insert your Academy ID and password.

[Your ID is the email address before @] (no need to enter @hkapa.edu)

## WINDOWS PLATFORM

 After connecting to Wi-Fi system, open your web browser and go to an arbitrary website. e.g. www.hkapa.edu. A web portal page as below will be shown.

Go to Network, and click on Advanced

● ● ◎ 〈 〉 IIII Network	Q Search	
Location: Automatic	$\odot$	
Bluetooth PAN Not Connected USB 10/11000 LAN Not Connected	Turn Wi-Fi On	Make sure to "Turn on"
<ul> <li>Belkin USB-C LAN</li> <li>Not Connected</li> <li>Wi-Fi</li> <li>Off</li> <li>Automation</li> <li>Ask to join</li> <li>forticlient_</li> <li>Not Connected</li> <li>Not Connected</li> <li>Not Connected</li> <li>Not Connected</li> <li>Ask to join</li> <li< th=""><th>Cally join this network n Personal Hotspots n new networks orks will be joined automatically. If pervorks are available, you will be a joining a new network.</th><th></th></li<></ul>	Cally join this network n Personal Hotspots n new networks orks will be joined automatically. If pervorks are available, you will be a joining a new network.	
+       -       ⊡ ×    Show Wi-Fi status in menu bar	Advanced ?	

• Enter your Academy ID and password, then click "Connect".

[Your ID is the email address before @] (no need to enter @hkapa.edu)

?

The Wi-Fi network "HKAPA" requires WPA2 enterprise credentials.
