

# THE DRAMATIC TOUR OF DRAMA 2.0 KICK-STARTED

Students were participating in an acting exercise during the workshop

The workshop of Drama 2.0 was held in the HKAPA Drama Lab on 19 January 2020, attracting dozens of secondary students and drama lovers to have a foretaste of the study that trains drama professionals in the HKAPA.

Following the success of Drama 1.0 workshops conducted last year, Drama 2.0 continued to create a simulation of drama classes for the participants. The element of interaction had been strengthened this year. Participants were engaged in a series of featured activities, including demonstration of voice training, physical movements within the surrounding space, and acting exercises. Participants also had an opportunity to consult Professor Poon Wai-sum, Dean of Drama directly at the Q and A session.

More Drama 2.0 workshops will be held in the coming months to bring the young people to the world of drama and related professions. Secondary schools can join us in the workshops by making prior registration. Please [click here](#) for details of the programmes.
